**Lincolnton Fire Department Receives New Rating After Inspection**  
State Officials Award New District Rating

LINCOLNTON, NC – The North Carolina Department of Insurance has awarded the Lincolnton Fire Department a Class two insurance rating. The department, previously rated at a four (received in 2008), has increased staffing, training and added improved technology reporting to help lower their rating. The rating system ranges from one (highest) to ten (not recognized as a certified fire department by the state).

“Having a lower insurance rating allows homeowners and business owners in the City of Lincolnton a lower insurance rate just by being located within our district” said Chief Heavner of the Lincolnton Fire Department. “I’m extremely proud of our staff for working so hard every day to make this a possibility. I think this reduction is a testament of the entire city staff and shows our commitment and dedication to our town.”

## Fire District Receives New Rating After Inspection

### State Officials Award New District Rating

**RALEIGH** - North Carolina Insurance Commissioner and State Fire Marshal Mike Causey announced today that the following Fire Districts completed their routine inspection and received the listed rating, on listed effective dates. The inspection, conducted by officials with the Department of Insurance Office of State Fire Marshal (OSFM), is required on a regular basis as part of the North Carolina Response Rating System (NCRRS). Among other things, the routine inspections look for proper staffing levels, sufficient equipment, proper maintenance of equipment, communications capabilities and availability of a water source.

| District         | Type      | Rating | Effective  |
|------------------|-----------|--------|------------|
| =====            | =====     | =====  | =====      |
| Lincolnton       | Municipal | 2      | 09/01/2019 |
| Lincolnton Rural | Rural     | 2/9S   | 09/01/2019 |

The NCRRS rating system ranges from one (highest) to 10 (not recognized as a certified fire department by the state), with most rural departments falling into the 9S category. While lower ratings do not necessarily indicate poor service, a higher rating does suggest that a department is overall better equipped to respond to fires in its district. Higher ratings can also significantly lower homeowners insurance rates in that fire district.

"I'd like to congratulate Chief Heavner for the department's performance and for the hard work of all the department members," said Commissioner Causey. "The citizens in the Town of these districts should rest easy knowing they have a fine group of firefighters protecting them and their property in case of an emergency."

State law requires OSFM officials to inspect departments serving districts of 100,000 people or less, which makes up all but twelve of the state's fire districts.
